# About

Where Young Minds Begin Their Journey to Serve the Nation!

Every great leader was once a child full of questions, dreams, and the desire to make a difference. At IAS Champion, we believe that the seeds of service, courage, and leadership must be sown early, nurtured with the right values, and guided by a deeper purpose.

IAS Champion is a government-registered academic initiative founded by experienced UPSC mentors under the guidance of in-service candidates, designed to mentor young minds. Our goal is not just to prepare future Civil Servants, but to shape responsible citizens and change-makers for India.

Through our unique online model and structured programs for students of Classes 5<sup>th</sup> to 12<sup>th</sup>, we offer a foundation course that aligns with NCERT curriculum, the UPSC syllabus, and the transformative vision of NEP 2020.

We don't just teach subjects, we open young hearts to the idea of India — its struggles, its Constitution, its heroes, and its future. We bring History, Polity, Geography, and Economics to life not through rote learning, but through stories, real-life connections, and thought-provoking questions that awaken character, curiosity, and courage.

# Vision

To nurture a generation of young Indians who view public service not just as a career, but as a commitment to nation-building. We aim to make leadership, civic responsibility, and constitutional values a part of every student's early learning journey empowering them to grow into curious thinkers, ethical leaders, and responsible citizens of tomorrow.

# Mission

To make UPSC-level thinking accessible and engaging for students through structured, age-appropriate, and interactive modules.

To support schools in aligning their educational delivery with the transformative goals of NEP 2020, fostering curiosity, civic awareness, and leadership.

To democratize civil services preparation by reaching students across diverse backgrounds through a learning model that combines flexibility with mentorship.

To instill aptitude, reasoning, and officer-like qualities in young learners preparing them not just for exams, but for a lifetime of purposeful leadership.
